2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Students are supported through orthodontic classes and mentoring. Final year graduates are taken care of by helpless students / graduates to analyze work profiles and career opportunities after completing their studies. Guest teachers also support students with their overall growth and the provision of further post-learning training. The Alumni Committee was established to close the gap between current batch students and improve the

employability needs of the industry. Students are encouraged to attend various seminars, workshops and symposiums. Subject-specific support courses are offered for late learners. Mentors provide students with different types of support, including:- • A refereeing department has been set up to listen to and respond to

student complaints. • Internship cells have been set up to provide internship service information to BBA, BCA, B.COM, M.COM, MCA, and MBA students. • Extracurricular and cultural events are held. • Regular seminars and workshops for BBA, BCA, B.COM, M.COM, MCA and MBA students. The awards ceremony is organized to honor the right students (100 attendance). Students who are slower to understand than their classmates are identified based on class attendance, pass rates, class grades, assignment regularity, punctuality, and personal interaction. The institute is sensitive to this through teachers and pays the learners the necessary attention at various speeds. Educational institutions use the following strategies to encourage and motivate later and better learners identified. For slow learners: • Each department organizes various programs such as remediation classes, trial tests, debates, group discussions, performances, and personal development workshops. • Mentors are appointed to meet the needs of slow learners. They provide them with personal, scientific and social advice. Mentors help students, especially slow learners, develop and move forward in their personality. A class coordinator is appointed to each class to specially care for, monitor, and guide slow learners and help them improve. Meanwhile, the institute also identifies senior students and processes them as needed. Advanced learners are supported by state-of-the-art equipment in the form of a complete library with the latest editions of books, online magazines, computer labs, internet and other facilities. In-school and out-of-school activities encourage a participatory approach to learning. Senior students are also encouraged to complete internships and industry-related projects in their research activities and learn beyond the prescribed course offerings. Various activities such as management festivals, quizzes, debates, seminars, exhibitions, colloquiums, etc. are conducted to help advanced learners motivate and excel in all areas.

2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

A continuous assessment with a weight of 25 to 50 on internal grades, depending on the purpose of the course, learning outcomes and pedagogy. Various components are defined and used for continuous evaluation. End of Semester Internal Exams-Written exams are held at the end of each semester. Student expertise is assessed by direct and indirect methods of evaluation methodologies / means, such as comprehensive exams. Case studies are determined by considering the parameters / learning outcomes to be measured and the desired priority areas in the implementation of the program. Curriculum specifications that are a little slower to understand than classmates are identified based on class attendance pass rates, class performance, and regularity of assignments, punctuality, and personal interactions. The institute is sensitive to this through teachers and pays the learners the necessary attention at various speeds. Review the lecture so that students can gain insights into previously covered topics and connect to new ones. Information is also provided to parents. The Institute regularly provides academic advice through Parent-Teacher Meetings (PTMs) to improve communication between parents and teachers. Class room Interaction Co-curricular activities: - Teachers also review students through numerous mechanisms in addition to regular college student interactions, quizzes, assignments, daily attendance, and mid-term exams. Therefore, students will be evaluated and graded according to laboratory / coverage suggestions in sessions with the faculty.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The Institute adheres to the academic calendar created according to the calendars provided by CCS University and AKT University for their respective courses. Each year, we create an academic calendar for the institute and a department-related activity plan to ensure that everything goes smoothly. This enhances the curriculum with related activities such as guest lectures, expansion series, and industry interaction. An academic calendar was created for the academic session and was followed to conduct exams and other activities. The science calendar will be displayed on the institutes website and shared with the department head for proper implementation. A copy of the 201718 meeting academic calendar is included for reference (Appendix 1). As an affiliate of CCS University and AKT University, we follow the university timetable. We have created academic calendars for various programs based on the schedule guidelines and academic schedules of the universities to which we belong. In general, these are the following guidelines for your academic schedule, along with an annual schedule for cultural and athletic gatherings. A. Beginning of the academic sessions. B. Last working day of the semester. C. Mid-term examination schedule. D. Annual Sports meet E. Annual cultural Fest F. End term theory and Practical examination schedule. G. Vacation schedule. The same academic calendar will be published on the Institutes website before the beginning of each academic year. Provide school year planning for students, teachers and parents. Considering the academic calendar, each faculty works according to the curriculum created at the faculty level.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

INSTITUTE OF MANAGEMENT EDUCATION 7.2 Best Practices Describe at least two institutional best practices Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link BEST PRACTICE- I Title of the Practice: Keeping faculty abreast with contemporary areas of the discipline so as to impart quality education. Goal Aims and Objectives: The Institute organizes Faculty Development Programs (FDP's), seminars, workshops etc. for enhancing and upgrading knowledge of faculty members. Such practices have deep impact on quality enhancement and overall development of faculty as well as students. The Institution conducts the FDP's/seminars/workshops/Guest Lectures with the following objectives: • To upgrade their knowledge and skills • To improve their effectiveness as teachers and mentors • To promote research work in their field of specialize • To inculcate values and ethics • To bring innovation and creativity in teaching-learning process • To develop sensitization towards environment and other social issues The Context: These talks acquaint the teachers with best practices across the world, helps in developing right research attitude, building professional ethics and becoming an effective teacher. The practice: Various programs to enhance knowledge of faculty are conducted on timely basis. These includes FDP's/seminars/workshops, interactive sessions and motivational lectures from eminent persons on topics related to research, management, interpersonal communication, values and ethics etc. Evidence of Success: It positively impacts the academic functioning of the Institute and facilitates the role of teacher as educators and mentors. Problems encountered and resources required: There are chances of overlapping

Problems encountered and resources required: There are chances of overlapping of content of different courses due to numerous courses available. There can be a situation where teachers don't practically imply the knowledge gain by them. Sometimes the courses are way short and teachers are not able to cope up with the content and require some additional add-on that can complement the existing knowledge. Best Practice-II Title of The Practice: Inclusive environment for everyone with tolerance and harmony towards cultural, regional, linguistic, communal socio economic and other diversities. Goals Aims and Objectives: Different sports and cultural activities organized inside the college promote harmony towards each other. Commemorative days like Women's day, Yoga day also promote tolerance and harmony. Institute has code of ethics for students and a separate code of ethics for teachers and other employees which has to be

followed by each one of them irrespective of their cultural, regional, linguistic, communal socioeconomic and other diversities. The Context: • Create environments for students, where barriers are minimised and learning supports and flexibility are built in to the environment at the outset. • Bring your community into the classroom and take your classroom out to the community. • It helps in development of an evidence-base for policy and practice in schooling. It covers quality teaching, pedagogical practices and creating effective links between schools and other cultural contexts in which students are socialized, to facilitate learning. The Practice: • Hold networking events for faculty and

historically underrepresented communities to encourage interaction and discussion on diversity issues. • Develop relationships with diverse, local populations and communities to provide work and volunteer experiences that connect to coursework. • Supply coaching services to applicants that need assistance during the application and interview process. Evidence of Success: • The college enrollment, retention, and completion gaps between "socially disadvantaged" and "socially advantaged" students are relatively well-known and

lamented by most who value higher education. • Students are more culturally sensitive now which shows higher level of value. Problems Encountered Resources Required: Unawareness among parents, irregular plans and improper execution of policies at times are creating hurdles for extending the concept of inclusive education. Sometimes the prospective students are also not aware about this feature of the college that restricts them to reach such students who are in need of such facilities.

8. Future Plans of Actions for Next Academic Year

Continuing with the tradition of striving for excellence, the Academic Calendar would be prepared, as per the Academic Calendar of the Affiliating University with additional activity. This year, we plan to make the Academic Calendar more 'action-oriented', especially as per the needs of various Departments. More extension lectures, industrial interaction and industrial visits will be scheduled, so as to bridge the gap between classroom teaching and industrial requirements. Also, keeping in mind the high level of stress among youth, new activities would be planned for the mental well-being of the youth. More activities of Social Outreach would be organized like donation camps, blood donations, plantation drives, environment awareness events etc. Apart from increasing the activities in these regular areas, we at IME plan to do the following additional things in the next academic session. 1. Pre-Placement Activities: We are planning to conduct a large number of pre-placement activities for the final year students of various courses, so as to help them optimally utilize the benefits of placement opportunities. This is being initiated on basis of feedback received from various stakeholders. 2. Shibui Talk Series: The biggest issue today is stress among youngsters. It is visible in ever increasing rates of suicide, drug abuse, depression etc among the college students. In order to help them understand life, healthy competition and beauty of 'everydayness' without stress, we plan to start a talk series, called Shibui Talks (Japanese word meaning beauty in Simplicity). 3. Alumni Registration: In this academic session, we also plan to expedite the process of registration for the alumni. Currently more than one thousand alumni are regularly in touch with the institution, contributing towards making the institute a center for excellence. Through registration, we would be able to unleash the huge potential of the alumni placements at respectable positions in different organizations globally. 4. Course Management: To implement the curriculum in a more effective manner, it is planned to follow new formats for lesson plan and evaluation. These have already been circulated to faculty members. Also progression of each student will be tracked to cater to individual differences. 5. Recycle-Reuse-Reduce: Keeping in mind the environment being harmed unnecessarily because of use of paper for reporting and record keeping, we at IME would like to initiate the triple R solution for various processes. The aim is to move towards paperless office, for which we would identify various processes which can be made completely paperless in the first stage. Adding more processes to have a seamless system with minimum use of paper and hence contribute towards protecting tress and saving the earth.
