

POLICY DOCUMENT ON GREEN CAMPUS

A Green Campus is a place where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

College environmental aims and objectives

- The faculty, staff and students have to contribute collectively to develop an eco – friendly sustainable campus and disseminate the concept of eco – friendly culture to the nearby community and wherever possible.
- Awareness creations about environmental issues among students and employees including climate change.
- Measure and reduce environmental emissions/ footprints

Waste Management

- To increase the green cover in and around the campus.
- Actions taken to reduce consumption of plastic in the campus.
- To encourage paperless work culture and reuse of paper.

Water Management

- Use of recycled water for watering plants, trees etc.
- Display water management instructions/alerts at prominent/relevant locations in the campus.

Climate Change

- Use of energy efficient LED lamps where ever possible like corridors, toilets etc.
- Monitoring the entry of vehicles in the college in terms of their fuel efficiency/ hybrid/ battery operated vehicles.
- Promoting the use of public transport.
- Creating awareness by organizing seminars, debates, activities related to climate change, environmental protection, and environmental issues.

We intend to pursue a programme of continuous improvement in our procedures, practices and review the policy on a regular basis to evaluate continued relevance and to monitor compliance.
